

Title - Portable Lap Top Bible/Book Holder
Inventors – Hilda V. Martin & Josephine A. Gatling
Application No. 10/663,275
Date – June 10, 2007

Claims

What is claimed is:

1. (Currently Amended)

A portable lap top bible/book holder comprising:

**An expansion base member of molded lightweight plastic
consisting of two duplicate right and left sections with both
sides having equal width and length measurements with two
flat downward support leg members of contoured molded
plastic on right and left outside ends of both sections;**

2. (Currently Amended)

A portable lap top bible/book holder comprising:

**A base with holder brackets permanently attached to open end
of left base in which right base can be inserted for use, or
detached for easy transport; the brackets also allow base member
to expand to desired size for proper fit on user's lap;**

3. (Currently Amended)

A portable lap top bible/book holder comprising:

**A flat durable desk top member for writing with permanent
attached top section to hold writing implements such as pens
and pencils;**

4. (Currently Amended)

A portable lap top bible/book holder comprising:

**An upright slanted back non collapsible book holder
member is formed and attached permanently to back
of top section.**
